you want,
without the
headache
you don't

*Introducing
Adora's
Cabinet
Removal
Service*

WE KNOW WHERE TO START

When it comes to home renovations, it can be daunting to know where to start - especially when it comes to cabinet removal. Even the most experienced do-it-yourselfer may be unsure of how to get the existing cabinets out without creating additional renovation challenges. That's why we created our new Cabinet Removal Service.

Adora knows cabinetry and storage solutions for any room in the house better than anyone else - and that includes understanding how to handle removal and installation with care. We'll tear out, remove and dispose of existing cabinetry and storage units quickly and efficiently. We work with renovation plans to mark out essential plumbing, natural gas and electrical connections to make the rest of the project easier.

Once we've completed the removal, we clean up the site to ensure your cabinet installation can get started right away. And if you want and it's possible, we can even repurpose your cabinets, dismantling and installing them anywhere else in your home. Whatever room you're looking to update, we can help you start out right.

HOW WE WORK

Our new Cabinet Removal Service is intended to make things easier for you. As part of our service, we'll:

- ✓ Provide an on-site consultation and cost estimate
- ✓ Thoroughly protect walls and floors
- ✓ Seal off the area to contain dust and debris
- ✓ Remove the old cabinetry or storage units and properly dispose of or repurpose materials
- ✓ Do minor wall repairs, such as nail and screw holes
- ✓ Thoroughly sweep, vacuum and wipe down the worksite, prepping it for the next phase
- ✓ Using the plans for your new kitchen or home storage solution, mark out any electrical, plumbing, or venting connections
- ✓ If requested and possible, we can expertly reinstall the existing cabinetry in another area of the home (i.e. garage, basement, hobby room)
- ✓ If required, arrange for plumbers, electricians or drywallers to provide services
- ✓ Make recommendations on other trades for services such as tiling, ducting, flooring, and painting

TELL US WHAT YOU NEED

Adora is here to help in any way we can. Just tell us what you need, and we'll get to work so that you can focus on the other aspects of your renovation project. We'll work with your contractor and tradespeople to make sure the project is done right. And if you're tackling it yourself, we're happy to provide recommendations and advice.

Adora
Kitchens & Cabinetry

the best for you.
